

Redwan Hasan Rahat

Software Engineer | Full-Stack Developer

Email: rahat18122@gmail.com | Contact No: [+8801741061905](tel:+8801741061905) | Address: Dhaka, Bangladesh

Portfolio: redwanrahat.com | LinkedIn: linkedin.com/in/redwanhasanrahat/ | GitHub: github.com/redwan-rahat

Full-Stack Developer with experience building production-level web applications using Next.js, React.js, Node.js, MongoDB, and PostgreSQL. Experienced in version control, RESTful APIs, and scalable web application development.

Experience

Full-Stack Developer | [Jplant](#)

2025-2026

Indoor Plant and Home Decor

- Developed and maintained a production-level e-commerce web application, handling frontend, backend, RESTful API integration, database management, and deployment using Next.js, React.js, Node.js, Express.js, JavaScript, and MongoDB.

Social Media Manager | [TIB](#)

2024-2025

DIU Youth Engagement and Support

- Managed social media operations, content coordination, team collaboration, and organizational events, coordinating with team members to maintain communication and engagement.

Projects

Utimely: Productivity SaaS Website

[Live Site](#) | [GitHub](#)

Tech: Next.js, TypeScript, Node.js, PostgreSQL, Prisma, GraphQL, Redis, Better Auth, Resend

- Built a full-stack SaaS web application with a responsive dashboard, secure authentication, real-time data handling, analytics, notifications, API integration, and PostgreSQL database management.

FurFriendz: E-commerce Web Application

[Live Site](#) | [GitHub](#)

Tech: React.js, JavaScript, Vite, React Router, Tailwind CSS, Supabase, Firebase, EmailJS

- Developed a multi-role e-commerce web application for pets, pet products, and vaccines with authentication, admin and delivery dashboards, inventory management, order processing, and delivery status tracking.

TechHeaven: Full-Stack Web Application

[Live Site](#) | [GitHub](#)

Tech: React.js, JavaScript, Vite, React Router, Tailwind CSS, MongoDB, Firebase, DaisyUI

- Implemented a full-stack web application supporting complete CRUD operations, user authentication, product management, database integration, and responsive UI development.

Technical Skills

Programming Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Motion.js, Tailwind CSS, React Router, Vite, HTML5, CSS3, Shadcn, DaisyUI

Backend: Node.js, Express.js, REST APIs, GraphQL, Redis

Database & ORM: MongoDB, PostgreSQL, MySQL, Supabase, Prisma

Authentication & Services: Better Auth, Firebase, JWT, Resend, EmailJS

Tools & Platforms: Git, GitHub, Docker, Vercel, Postman, VS Code, Figma, Framer, Antigravity

Soft Skills: Problem Solving, Client Communication, Team Collaboration, Quick Learning

Education

Daffodil International University

CGPA: 3.45 / 4.00

B.Sc. in Computer Science & Technology | Dhaka, Bangladesh

2022 – 2026

Certification

Phitron by Programming Hero — Programming fundamentals, data structures and algorithms.

Complete Web Development by Programming Hero — Full-stack web development, frontend, backend, databases.

Digital Marketing & Graphics Designing by SR Dream IT — Market analysis, Generative AI, Google Search Console.

Creative and Productivity Tools:

Notion, Miro, Canva, Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Google Docs, Google Sheets, Microsoft Office Excel, Microsoft Office Word, Microsoft Office PowerPoint.
